

I understand there is a possibility that the translator providing the local K-LOVE radio station service may be supplanted by an LPFM as a result of this proceeding.

Please be aware that K-LOVE radio is an important radio alternative in the Loveland and Fort Collins area. For families with kids, it's a big part of basic character education, as long exposure to the alternatives tends to develop attitudes antithetical to the kind of character which is the goal of "character education" in schools, scouts, and other nonprofit organizations. Not only does the music help develop positive attitudes that displace irresponsible behaviors, but the break from frenetic commercial advertising is a big help too.

Thank you for your attention to these comments.
